2017

ANTI-REFLUX AND BARIATRIC SURGERY

THURSDAY
MAY 11

8.15 AM

Registration and welcoming of participants

8.30 AM

For **OPTION A** and **OPTION B**
xxxxx

THEORETICAL SESSION

Bariatric endoscopy

- × Endoscopy and bariatrics, an overview
- × Endogastric balloons: indication and techniques
- × Endoluminal gastric sleeve: indication and techniques
- × Emerging endoscopic weight loss therapies
- × Endoscopic bariatrics, clinical results to date

Endoscopic complication management of bariatric surgery

- × Complications during and following bariatric surgery: cause, prevention and incidence
- × Endoscopic treatment of band complications
- × Treating the dysfunctional sleeve
- × Endoscopic salvage following Roux-en-Y bypass
- × Endoscopic reoperations following bariatric surgery
- × Treatment of leaks and fistulas following bariatric surgery

11.30 AM

LIVE & PRE-RECORDED OPERATIVE DEMONSTRATIONS

- × Endoscopic sleeve
- × Balloon
- × Bypass revision

CONCLUDING LECTURE

12.45 PM

Lunch at the Institute

13.45 PM

For **OPTION B** (Option A: afternoon free)
xxxxx

HANDS-ON TRAINING ON EX VIVO MODELS

6.00 PM

End of session

8.00 PM

Dinner in honor of the participants

COURSE OBJECTIVES

To provide the knowledge required to make progress in the field of anti-reflux and bariatric surgical endoscopy

×

To describe the technical steps which are used for advanced anti-reflux and bariatric surgical endoscopic procedures

×

To describe results and potential complications, and how to prevent them

×

To practice on ex vivo and live tissue in order to give participants the technical capacity to improve their expertise

EDUCATIONAL METHODS

Interactive theoretical and video sessions between Faculty and course participants

×

Live and pre-recorded operative demonstrations

×

Hands-on sessions in surgical endoscopy on ex vivo and live tissue under expert tutorials

FRIDAY MAY 12

7.45 AM

Evaluation of the previous day

8.00 AM

For **OPTION A** and **OPTION B**

×××××

THEORETICAL SESSION

Endoscopy and anti-reflux surgery and other swallowing disorders

- × The tragic history of endoscopic GERD treatments
- × Radiofrequency treatment of the LES: indications, technique, and results
- × The Transoral Incisionless Fundoplication procedure: indications, results and technique
- × Ultrasound directed stapled endoplication
- × Endoluminal pledgeted suture reinforcement of LES
- × Magnetic collar sphincter augmentation - the link between Endoscopic and laparoscopic therapies

Endoscopic therapies for swallowing disorders

- × Necessary tools for assessing swallowing dysfunction
- × Per-oral endoscopic myotomy (POEM) for achalasia – where does it stand?
- × Treating GERD post-POEM – what are the options?
- × Dilation and/or stenting for achalasia – how does it compare?
- × Treating GERD post-bariatric surgery – options and results
- × Dysphagia post-fundoplication – why, when, and how?
- × Advanced endoscopic platforms – how will they change endoscopic surgery?

CONCLUDING LECTURE

“Taking it home: how surgeons can establish an endoscopic practice”

12.30 PM

Lunch at the Institute

1.30 PM

For **OPTION B** (Option A: afternoon free)

×××××

TRAINING ON LIVE TISSUE (MINI-PIGS)

5.30 PM

End of the course
Delivery of certificate of attendance
